

**These are some of the first changes that must be made in the 2011 Congress. Please call your congress person and ask that these be under consideration. These changes must be made in order to get our country back. Not necessarily in the order listed! Send this to all the House of Representatives. They control the purse strings. These cuts will be a start in the right direction to cut spending in Washington, D.C. This is what the citizens of the U. S. want done! I would say the first item to cut would be foreign aid, & 2<sup>nd</sup>. Bring troops home NOW!**

1. No legislation can be introduced unless it follows the Constitution. All legislation already passed that does not follow the constitution is “null and void,” and must be “scrapped.”
2. Barack Obama must produce his birth certificate immediately, also his school and college records, if he does not produce them, or if he produces them and he is not a U.S. citizen, start proceedings to remove him from the office he should never been allowed to run for. He must then be immediately arraigned and prosecuted for this fraud. Those who were part of this fraud on the U.S. must also be prosecuted immediately.
3. Bring our troops home from Iraq, Afghanistan, and any countries they are operating in that area, place them on the border with all equipment, munitions they need to defend this country and their persons.

13. Dissolve all free trade deals, CAFTA, NAFTA, WTO, Most favored Nation with China, etc. Institute true fair trade and put a tariff on all incoming merchandise. This will level the playing field and bring many of our good jobs home. NO Chinese companies should ever be allowed to be given access to the FTZs in the USA!

16. We want the 10 Commandments reinstated where ever it was taken down. Stop the NON-SENSE!

22. De-nationalize the banks, auto industry, car industry, oil industry, Insurance Industry, etc, that the government has taken over!
23. Build refineries and drill oil on U.S. soil. We have more oil than any other country on earth, and make sure this oil and gas will be used for U.S. citizens. We then would not be beholden to foreign countries. Try North Dakota, Montana, and Colorado for starts. Unplug the wells that were plugged years ago! Stop the Non-Sense!
