

# NEXXUS ENVIRONMENTAL CORPORATION

**Hollywood Health & Hope** Founder and Chief Executive of **NEXXUS ENVIRONMENTAL CORPORATION**, *Stephan Venczel*, will be presenting on the current situation on radiation poisoning in the United States, our current environmental problems, challenges into the future and where we really stand, albeit in a medical emergency situation. What can you do as an individual to help protect yourself against ionizing radiation?

Some of the Topics to be covered will include;

- *What is ionizing radiation? Where are its sources, where does it come from?*
- *Fukushima: What have we done to ourselves?*
- *Cover stories and fantasies: The controllers trying to hide the 600 lb. gorilla.*
- *The dying and ultimate death of the Pacific Ocean: Are we really too late?*
- *Time windows and physical breakdown from radiation: Where we are, what is happening to the general population now in North America? In Northern Europe? Around the world?*
- *The Wigner effect: What is it and what does it mean for the flying public and their safety?*
- *Radiation workers: Who is most affected by all the new doses of massive radiation?*
- *Skyrocketing cancer rates: What types of cancer are abnormally rising now?*
- *Radiation versus CO<sub>2</sub>: Which is truly the surreptitious threat? Death vs. Taxes?*
- *Hope: Know that there are answers and technologies which can be used going forward.*
- *Health Programs: World leading solutions being offered by Hollywood Health & Hope.*
- *The future we want, the future we can have: How bad do you want to live?*
